"In 1857 one steel rail was sent to Derby, England, laid down on the Midland railroad where travel was so great metation rails had to be renewed almost every three months. In June, 1873, atter sixteen years of trial, that rail was ir replaced. Then it was that Sir Henry Bessemer, a civil engineer of London, it who had experimented in gun-casting, by pretended to have discovered the process which is now called Bessemer.

"In 1857-58 William Kelly, of Louisville, Kentucky," we quote, made at the Cambria Iron Company's works, the tifrst experiment in this country of pneumatic steel. Kelly preceded Bessemer beyond the possibility of a doubt in the discovery of the process, but Bessemer obtained the patent, yet Mr. Morriell achieved the feat of avoiding years of litigation by consolidating the two companies and putting the process into effectual uses.

THE RECONCILIATION.

I'wo urchins strolling on the beach, Beside the tranquil sea, Beheld a pearly block, and each Cried, "That belongs to me!" And both at once with eager hands, Began to scramble in the sands,

Like alabaster pure and white, Upon the pebbled shore, That treasure lay, a lovely sight, And well worth fighting o'er: Long struggled the contending twain The prize so coveted to gain.

Lo, while they strove, a stranger tall, Strode quickly to the spot, He stooped beside the champions small, And took the prize, I wot ;-

"Ye both are richer than you know." Then with a string he did divide That precious cake, and smiled;

Then spoke in solemn voice and slow.

"'Tis Ivory Soap, share it with pride; My lads, be reconciled!" Each took his half and went his way, Oh, rich and happy boys were they.
